

RTL / Timeclock iPad Network Migration

Apple Configurator + Meraki Systems Manager + ABM Enrollment

This guide provides step-by-step instructions to enroll an iPad using Apple Configurator and Meraki Systems Manager, and confirm ADE assignment in Apple Business Manager.

Requirements

- iPad
- MacBook
- Apple Configurator (latest version)
- Meraki Systems Manager (latest version)
- Apple Business Manager access

Step 1 — iPad Initial Setup

- Language: English, Region: United States
- Select Setup without another device
- Connect to corporate WiFi SSID using provided credentials
- Select Setup device for yourself
- Do not create a passcode or Touch ID
- Select Don't transfer anything for restore/transfer
- Sign in with the appropriate Apple ID for the location
- Continue through prompts — skip Siri and data sharing steps

Step 2 — Supervise Device via Apple Configurator

- Connect iPad to MacBook
- Open Apple Configurator and click Prepare
- Prepare with: Manual Configuration
- Supervised devices: Checked
- Allow devices to pair with other computers: Checked
- Server: Do not enroll in MDM
- Organization: Select your organization
- Setup Assistant: Show all steps → Prepare
- If prompted to erase — click Erase and Proceed

Step 3 — Enroll Device in Meraki

- On MacBook click Network in top left → scroll to the correct network (RTL or Timeclock — select the appropriate one)
- Click Add Devices → iOS
- Note the Network ID provided on the Add Devices page
- On iPad open Safari and go to: enroll.meraki.com
- Enter the Network ID and press Register
- Download the profile when prompted
- Go to Settings → Profile Downloaded → Install → Install
- When prompted tap Trust for Remote Management
- Wait 5-10 minutes — device will sync and apps will begin downloading

Step 4 — ADE Enrollment in Apple Business Manager

- Log in to Apple Business Manager
- Click Devices in the left sidebar
- Search for the iPad by serial number
- Click the three dots → Edit MDM Server
- Select the appropriate MDM server (RTL, Timeclock, or Corporate)
- Click Confirm

Step 5 — Confirm ADE Assignment in Meraki

- Go to Meraki → Systems Manager → Devices → ADE
- Search for iPad by serial or name
- Confirm ADE status shows as Assigned
- Select iPad → Edit → Tags → apply appropriate tag (e.g. time-clock or Ipad Managers-Ipad)
- Add a recently-added tag
